Yvonne Förster

Expert in digital cultures. Speaker, writer, advisor.
Lüneburg, Niedersachsen, Deutschland

Summary

I am a philosopher and expert in cultural and technology analysis, working at the interface of academia, art and industry. My research and teaching—at institutions such as the Chinese University of Hong Kong, Leuphana University Lüneburg, and the University of Kassel—focus on the impact of AI, embodiment, and aesthetics in digital cultures.

As a strategic advisor and speaker, I support organizations like SAP in navigating the ethical and societal implications of emerging technologies. I regularly contribute to international conferences and forums, where I speak on digital transformation, posthumanism, and future cultures.

My aim is to build critical frameworks for understanding technological change—whether through consulting, public discourse, or interdisciplinary research at the intersection of humanities, technology and art.

Experience

Technical University of Munich
Philosopher in Residence TU Munich
July 2025 - Present (1 year 5 months)
Germany

Self Employed
Technology, Arts and Media Advisor
January 2017 - Present (9 years 11 months)
Germany

Technology, Arts and Media are strongly related and constantly developing. Being trained as academic philosopher I offer conceptual and historic knowledge in the fields of new technology, cognitive science and their aesthetic dimensions in art, film and popular culture.
